

**KING INDUSTRIES
JOB DESCRIPTION
ELECTRICIAN**

Location: Norwalk, CT

King Industries, Inc. is actively seeking to hire a skilled Electrician to join our Maintenance team. The ideal candidate should have a high school diploma or equivalent and 4 years of electrician trade school, as well as 10 years' experience as an instrument and equipment troubleshoot and repair electrician. Connecticut State E-1 electrical license is required. This role involves critical maintenance work on electrical equipment and supporting our plant's operational excellence year-round.

1. Skills Required:

- Ability to work in a team environment.
- Knowledge of mechanical ability to troubleshoot, repair and maintain electrical and electronic control instruments and process equipment.

2. Education and Experience Requirements:

- High school diploma or equivalent and 4 years' trade school.
- 10 years experience as an instrument and equipment troubleshoot and repair electrician.
- Connecticut State E-1 electrical licenses.
- Experience in industrial electrical work preferred.

3. Duties and Responsibilities:

- Read and interpret and draw blueprints for project completion.
- Trouble-shoot, repair, and maintain pneumatic/electronic controls, electrical instruments, and equipment.
- Assist with moving and installing equipment on all elevations.
- Install conduit, instrument cables, trays, and other necessary support systems.
- Install electrical equipment from motor control centers and control rooms.
- Conduct preventive maintenance of electrical equipment throughout the plant year-round.
- Comply with company safety programs.
- Work Maintenance Saturday's twice a month.
- Participates in company wide effort to promote quality assurance in compliance with ISO 9001, ISO 14001 and OHSAS 18001.
- Maintain a general knowledge of ISO 9001, ISO 14001 and OHSAS 18001 requirements.

If you are interested in the position, please submit your cover letter and resume to careers@kingindustries.com.
